Dear Josh:

It is very nice of you and Esther to ask me to stay with you during my forthcoming visit to Madison. I know that I would enjoy your hospitality very much provided it will not upset any of your routines and will not cause any undue amount of extra work for you (I'll wash the breakfast dishes). Since I am planning to spend 3 nights in Madison it might be easier on you if I would spend at least one night at the hotel. However, I shall leave the decision and coordination of these matters to you and Joe Wilson.

I am planning to go from here to Detrick on Sunday afternoon March 11 and then I'll proceed from there to Madison via Washington on Tuesday afternoon, arriving in Madison at 10 p.m. Thus, I won't be able to see you in Washington unless you can postpone your departure from there until the 13th. Will you be near New York on your trip? We'd like to show you our new house too.

I am looking forward to seeing both of you soon.

With very best regards.

Sincerely,

Werner Braun
